## MIC SECTION

- + MIC LED SECTION
- + MIC SEWAGE AND WATER TREATMENT SECTION
- + MIC ENVIRONMENTAL SOLUTIONS
- + MIC PLAYING GAMES & EQUIPMENTS
- + MIC OUTDOOR FURNITURE & STREET FURNITURE
- + MIC HOSPITAL FURNITURE
- + MIC SLAUGHTER HOUSE EQUIPMENTS
- + MIC LIQUID STORAGE TANKS

## MIC LED SECTION

Our LED section is engineered to provide integrated solutions for LED Lighting i.e.

- + Sports Field Lighting
- + Indoor Lighting
- + Façade Lighting
- + Street Lighting
- + Garden Lighting
- + LED Screen
- + Tunnel Lighting
- + Under Water Lighting

We are one of the pioneers in LED lighting in Qatar. We had gone a long way with learning and educating clients and consultants on LED benefit & design Criteria. We have also learned in the past 9 years of operation the right suppliers and how to overcome the local condition like heat, humidity, dust...etc.

Our experience in both technical and local condition, coupled with selecting the right supplier to the project in hand makes us unique. We are not tied up or represent a company but will find the best solution for the project. We have the experience for both new installation and retrofit the existing light system e.g. (Replacement of existing lamps to LED Lights)

We are confident on our design & installation capabilities; compelled with our experience in after sales services, we provide the best solution to our customers.

Depending on the project we are able to give our customer 3-5 years guarantee for our products.

### **Lighting Range:**

We have wide range of LED Lights, e.g.

- |                 |                |                     |
|-----------------|----------------|---------------------|
| ▪ Down Light    | ▪ Spot Light   | ▪ Strip Light       |

- 3) De-Mineralized Plant (DM Plant)
- 4) Reverse Osmosis Plant (RO Plant)
- 5) Softener Filter Plant (SF Plant)
- 6) Continuous Electro De-ionization (CEDI)
- 7) Water Treatment Plant (WTP)
- 8) Ultra Filtration System (UFS)
- 9) Nano Filtration System (NFS)
- 10) UV Systems (UV)

شركة مبارك العالمية ذ.م.م.  
MUBARAK International Co. W.L.L.

## SERVICES

- Total Service Provider under one roof.
- Minimal Foot print.
- Experienced and expert team.
- Qualitative products.
- Customized for cost-effective products/services.
- Service support and after sales services.
- Operation & Maintenance of our Plants.

## SOLUTIONS FROM MIC

- Environmental Friendly Systems
- Energy Recovery System which was produced with the latest technology is used in our all System. Thus, Energy Cost is minimized.
- Constant Output quality regardless of feed quality
- Compact plant size
- Capable of exceeding regulatory standards of water quality, achieving 90-100% pathogen removal
- Mobile system

## Major Clients:

1. KATARA SEALINE BEACH RESORT
2. QEERI, QATAR FOUNDATION
3. AL REEM GARDEN, AL WAJBA

## ENVIRONMENTAL SOLUTIONS SECTION

We are introducing a wide range of environmental solution product in areas like Floor Cleaning equipment provides and Electric utility vehicles.

### **GEM AND GOUPIL ELECTRIC VEHICLE:**

Environmentally friendly, economical, silent and versatile, the electric commercial vehicle is an innovative solution for local authorities wishing to combine operating efficiency with sustainable development. Based on a purpose built robust chassis, Goupil Industrie has developed a comprehensive range of vehicles (tipper, box van, watering system, electric high pressure cleaner...) meeting the requirements for many diverse applications e.g. Green spaces, town cleaning, leisure...

1. Environmentally friendly and silent: 0 gram of CO2 during operation and does not emit any polluting gases and is perfectly silent.
2. Easy to Use: The Goupil is very simple to drive and its battery can be charged on a standard 16A 220V socket.
3. Cost effective and profitable: As the Goupil is **100% electric** it does not need any fuel. The only operating costs are recharging the battery.
4. Ergonomics and comfort: The Goupil has been designed with the operator in mind.

### **Major Clients:**

1. United Cleaning Services : Vehicle operational at Katara Village

2. Compass ESS: Vehicle operational at Aspire Zone
3. Amwaj Catering Services: Vehicle operational at Aspire Logistics
4. QITICO: Vehicle operational at Katara Village
5. Katara Hospitality: Luxury GEM 6 Seater Golf Car with A/C for VIP operational at Sheraton Hotel
6. QATAR ARMED FORCE: Electric Utility Car with A/C

### **ADIATEK FLOOR CLEANING EQUIPMENT'S**

The machines are equipped with a very advanced technology as

1. Chem-Less System (No Dangerous Chemical Required): Cleaning machine are equipped with Ozone generator which generates very powerful environmental friendly disinfectant (Bactericide, anti-germ). Effectiveness of the machine is reaches not only when using the machine but also afterwards.
2. Solution Saving System (3S): New devise developed by Adiatek optimizes the water and detergent solution consumption. 3S allows big water and detergent saving for greater respect for the environment.
3. Solution Saving System Dispenser (3SD): The 3SD device help to protect the environment by preventing waste of such an important resource like water, excess detergent and simultaneously increasing operational performance by self-calculation the requirement according to the operational areas.

### **Major Clients:**

1. MMG Facility Management Company: Used at World Trade Center.
2. QICC (Qatar International Cable Company): Factory and Warehouses.
3. Qatar Petroleum, Dukhan.
4. QATAR ARMED FORCE : North Army Camp

## **MIC INDUSTRIAL EQUIPMENTS & FURNITURES**

### **SLAUGHTERHOSE EQUIPMENTS**
